WILL IT CURE ME?

That's the personal question a woman asks herself when she reads of the cures of womanly diseases by the use of Dr. Pierce's Favorite Prescription.

Why shouldn't it cure her?

Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, ulceration and female weakness. It always helps. It almost always cures.

"I commenced taking your medicine, 'Favorite Prescription,' nearly a year ago for chronic inflammation of womb, and can truly say it is the only thing that ever did me any good," writes Mrs. L. C. Wagner, of 125 Edwin Street, Toronto, Ontario, Canada. "I could not walk any distance before using it. After taking six bottles of your 'Favorite Prescription' I find I can walk without difficulty and am greatly benefited in general health. Would advise all suffering women to use Dr. Pierce's medicine."

Pierce's Pleasant Pellets These are the **Original Little Liver Pills**, first put up over **40 years ago**, by old Dr. R. V. Pierce. They've been **much imitated** but **never equaled**. Smallest, easiest to take and best. They're tiny, sugar-coated, anti-bilious granules, a compound of refined and *concentrated* vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. *Permanently* cured, too. By their mild and natural action, these little Pellets gently lead the system into natural ways again. Their influence *lasts*.

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It.

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

STRIKE DISORDERS.

With 1,330 teamsters on strike last night, with constant accessions to their number and with the express determination of the Employers' Association to to take a firm stand for the "open shop" and to fight the teamsters' union to the bitter end, Chicago to all appearances stood on the eve of one of the greatest industrial unheavals in her history.

There was rioting in various parts of the city yesterday, despite the strong guards of policemen and the numbers of private detectives hired by the Employers' Association to protect their wagons. During the clashes three persons were seriously injured, two of whom will probably die.

The declaration made last night by members of the Employers' Association that it would probably discharge any teamsters who refused to haul good to or from Montgomery Ward & Co. brought out the teamsters in many downtown mercantile houses during the day, and the number, it was expected, would be increased largely by tomorrow.

While the labor leaders were conference yesterday delegates of the Chicago Employers' Association, the Commercial Exchange and representatives of outside industrial organizations met at the Union League and declared that they would fight to the last ditch for the "open shop" in Chicago.

At the close of the meeting the following authorized statement was made: "The employers are of one mind. They are determined to have this city made an 'open shop.' They are tired of standing for slavery such as we have endured from labor unions in the past. The employers pay the men for a day's work, and if the men fail to do it they will be discharged. They cannot tell us with whom we shall or shall not do business. We are not making any fight against the unions as such, but the unions of Chicago are evidently determined to run the business of every merchant in the city, and we are going to show them that they cannot and will not be allowed to do it. We are ready to defend our interests against any fight that the teamsters and the Chicago Federation of Labor may put up."

Subscriptions were taken during the day to strengthen the Employers' Teaming Company, the weapon with which the Teamsters' Union is to be fought, and last night President Mark Morton, of the company, who is a brother of Paul Morton, secretary of the navy, had $1,000,000 at his disposal and had ample assurances from business men that he could have as many times the amount as was necessary.

Cocktails in Baltimore Teapots.

It is rumored that Baltimore society women have recently adopted a new wrinkle, a sort of polite subterfuge as it were, that curtails the gossip of the religiously inclined and at the same time adds zest to the occasion. Originality in doings and dress has been the prerogative of women ever since Eve in the garden ate figs as a subterfuge while she plucked the leaves. Tempests in teapots now have an usurpen, for cocktails in teapots, with cream and sugar on the side, is the latest fad of the smart society woman. The seductive cocktail has been the cause of keeping many an eligible bachelor away from a pink tea where a charming hostess presided. Now we shall see a change. The old order will be reversed. The Manhattan and the dry Martin will call from afar the very elusive bachelor, when from the depths of the most delicate of Sevres of the most delicate of Sevres china teacups one can read his fortune not in tea leaves, but in the bright eyes opposite that so sweetly say unutterable things, while charming lips murmur, "Shall I fill your cup?"

The Pope Confers With Redmond.

The Pope yesterday received John Redmond, the Irish leader. The Pontiff inquired keenly into the religious, political and industrial development of Ireland, and expressed complete sympathy with the Irish national party, which he termed the defender of the Catholic religion in Ireland, "because," he added, "that is the national religion of Ireland, and it is the national party."

The Pope also said that the national party's efforts to achieve liberty for Ireland and also full civil and religious rights for the Irish people by lawful and peaceful means, would have his sympathy and blessing.

The Pontiff presented Mr. Redmond with a portrait of himself bearing the following autograph inscription:

"To our beloved son Redmond, leader of the Irish party in the House of Commons, with the wish that he, together with his equally beloved colleague, using all legal and pacific means, may win that liberty which makes for the welfare of the Catholic Church and the whole country, we impart our apostolic benediction with particular affection."

New Cure For Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at E. S. Leadbeater & Sons' drug store.

Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for uterine trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular menstruation, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that bearing-down feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, at Lynn, Mass., for further free advice. No living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timman and W. F. Creighton & Co.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, APRIL 28, 1905.

THE announcement in another column that General Fitzhugh Lee has received a stroke of apoplexy will be read with sincere regret not only by Alexandrians, to whom he is so well known, but throughout his native State, the South and the entire country, as he has for a number of years played a prominent part in the history of the United States. The general's condition is not regarded as critical, although it is occasioning his relatives and friends anxiety. General Lee, like his distinguished uncle, was a familiar figure in Alexandria, and he was personally acquainted with a large percentage of our people. His military record had preceded him long before he took up his abode in this vicinity. Faithful in the defense of his own State, he was equally so as Governor of the Old Dominion, as Collector of Internal Revenue for this district and later in the employment of the President of the United States as Consul General at Havana at a time when it required statesmanship, nerve and a cool head. His services were appreciated in such a measure that when the late William McKinley was elected President he continued General Lee at Havana notwithstanding the fact that he had been appointed under a democratic administration. In fact the entire republican party, as greedy as many of its members were for office, protested against his removal when it was requested by Spain.

THE TARIFF war between Germany and the United States, threatened by the notification from Germany that the present commerical treaty between the two countries shall cease March 1, 1906, is regarded as certain to result in a demand by Germany for tariff concessions upon her manufactured goods in return for low duties by Germany upon American cotton, grain and foodstuffs. The commerce involved amounted last year to $328,969,546, of which the United States received for goods sent to Germany $212,780,902. Inasmuch as Germany has almost everything to gain and comparatively nothing to lose, it is expected that the terms she suggest will be anything but advantageous to this country The chief exports from the United Statee to Germany are cotton, wheat and other grain, fruits and meat. The imports from Germany consist chiefly of manufactures of a class that do not conflict materially with manufactures in this country The fact that in the event of a tariff war, such as the State Department believes to be inevitable, the United States has much more to lose than Germany, gives the latter nation a decided advantage. Whatever is to be done by Congress must be done before March 1 next. Otherwise the present treaty will expire and, with no other argument to take its place, the German duties upon American products will, under the new German tariff law, be advanced from 50 to 250 per cent.

REPLYING to the published statement that the coming trip to the Philippines for members of Congress is a colossal government junket and an expense of $50,000, Secretary of War Taft says that this is wide of the truth. He says that the whole trip will not cost the Philppine government over $10,000, and that the expense of every guest, aside from what is charged to the government, will be at least $500. His own expenses as Secretary of War and those of his clerks will not exceed $15,000. If they take their wives and families this will be at their own expense. He wishes to investigate the workings of the internal revenue laws of the island and the present condition of the railroad service, in view of the contemplated extensions. Since the annonncement that the trip is not all "free" a number of declinations have been received.

THE rapidly increasing deficit already placed at $35,000,000 is giving Secretary Shaw many a bad quarter of an hour. He has discussed the condition of the treasury with all his assistants. The deficit may be expected to grow rapidly immediately after July 1. The deficit for next year is already estimated at between $35,000,000 and $50,000,000. The heavy deficit this year is due solely to the fact that revenues are not sufficient to meet ordinary expenses, a system of housekeeping that drives the private individual into bankruptcy. Of the $170,000,000 deposited in national banks less than $80,000,000 remains, and a call is out now for the return to the treasury of $27,000,000 of that sum. But the reckless expenditures still go on and no efforts are being made along the lines of retrenchment and reform.

THAT the American public schools in the past, and most of those of today, are largely responsible for developing a desire for personal advantage or gratification, regardless of the welfare of others, or of the social whole, is the recently expressed opinion of J. G. Phelps Stokes, the wealthy millionaire settlement worker of New York. He says it is evident that the mode of developing the social life of the child has been insufficently considered. Only by teaching the spirit of fairness and of consideration due his neighbor can the selfish tendencies of the young child be forestalled. In this respect, our entire school system has been on the wrong track.

THE Texas legislative committee appointed to investigate beef trust affairs in that State reported that in their judgment there existed in Texas a combination of persons and corporations engaged in the business of packing beef and other like products in contravention of the anti-trust laws. The committee recommended that the beef trust be prosecuted, and the report was adopted. The Texas example should be followed by all the other States which do not have anti- trust laws.

THE recall of Minister Bowen, who has had a hand in the Venezuela trouble, would appear to be probable, yet it is asserted that Bowen has only obeyed instructions of the State Department! This is where the mystery comes in. Those who have tried to follow the matter closely find that it leads constantly around a circle, which does not appear to have any well-defined beginning or ending.

A DISPATCH from Spain says the Council of State has authorized the resumption of Sunday bull-fighting on the ground that it is an art and the participants artists. This is quite in keeping with the prevalent American view of the butchery of lambs in Wall street as one of the fine arts.

ACCORDING to the best information at hand, the downfall of F. G. Bigelow, the Milwaukee bank president who got away with over $1,000,000, was due to a sudden slump in wheat preceded by a more or less gradual slump in morals.

MUCH inconvenience and danger result from the fact that some of the large guns of the navy are subject to "flare-back" and muzzle explosion. That seems to be the trouble with some of the big guns of politics.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 28.

Representatives of the San Domingo Improvement Company in Santo Domingo, have filed at the State Department a brief in answer to the representations that have been made calling into question the validity of its claim against the Government of Santo Domingo. The statement was made on the floor of the Senate that the paid in capital of the company was only $1,500 although its claim was for over $6,000,000. The company points out that it availed itself of the New Jersey incorporation law which permitted it to name only a nominal capitalization in its first papers. But it shows now that it increased its capital stock to $1,500,000 and afterwards reduced it to $1,000,000. The statement has also been made that the claim of the company was never really arbitrated and that the so-called arbitral award under which the United States collected the revenues of Puerto Plata in order to pay that claim was illegal. The company shows in its statement filed today that the usual processes of arbitration were gone through with and that an award was made in which th Santo Domingan government concurred.

The indications are that there will very shortly be a general shake-up in the diplomatic representation of the United States at various South American capitals. The posts involved are those at Panama, Venezuela, Colombia and Chili. The changes contemplated by the administration do not necessarily mean a reflection upon the ministers involved, but are being considered with the hope of facilitating business and removing friction. It is understood that the transfers will not be delayed until the President's return and they may be expected any day.

Acting Chief Moran of the Secret Service received a long distance telephone message from Philadelphia this morning which announced the arrest of a lottery agent and the seizure of a large number of lottery tickets and circulars. The tickets were for the Mexican Lottery Company and are believed to have been brought east from San Francisco which is at present the apparent headquarters of the lottery agents now flooding the country with their goods.

Continuing his statement before the Senate Interstate Commerce committee this morning, A. C. Lincoln, general freight agent of the Missouri Pacific, endeavored to show the impracticability of having the Interstate Commerce Commission rates.

The Phillipine commissioners have passed a conscription act, copies of which have been received by Secretary of War Taft, who has raferred them to the law department for an opinion.

There is trouble at Fairbanks, Alaska, a new mining town that was named for the vice president of the United States. The postoffice employes are on strike for more pay, and there is no appropriation and no law that can be invoked whereby the needed money can be obtained.

Considerable speculation has been indulged in here today as to the President's reasons for curtailing his hunting trip, but the general opinion is that the underlying cause is the Bowen-Loomis affair. This is a matter which the President wishes to handle personally and to dispose of as soon as possible. That Minister Bowen would transmit to this government an official report of the gossip current in Caracas affecting the standing of the present Assistant Secretary of State was entirely unexpected. The fact that such gossip had been prevalent in the Venezuelan capital was not news to the President, nor to Secretary Taft. Its transmission, however, by Mr. Loomis' subordinate, in an official communication calls for the most rigid investigation. It now looks as though Bowen's tenure of office would be very brief.

One of the first capture ever made of a vessel flying a foreign flag smuggling in American waters has just been reported from the Phillippines. The capture was made by the coast guard cutter Dablas, and is that of a sloop flying the flag of the Netherlands. She was discovered smuggling her cargo of merchandise into Sibutu, a small town on one of the extreme southern islands.

John A. Benson, the California land operator, indicted here for alleged complicity in land frauds in the west, whose removal from the southern district of New York to the District of Columbia was ordered by the Supreme Court in a decision last week, has applied through his attorneys for a rehearing of the case on very novel grounds. In the application, Benson's attorneys set up the claim that the government has no standing in court when it requests Benson's removal to the District of Columbia, because the District of Columbia has no legal existence. They assert that ten miles square constituting the District was conveyed to the United States by Maryland without any authority in the latter to make such conveyance and therefore the conveyance is void. If this be true, Maryland still owns the District and the United States has no jurisdiction.

National Bank Examiner Bosworth telegraphs the Comptroller of the Currency from Milwaukee that the run on the First National Bank has entirely subsided and no further trouble is feared. Mr. Bosworth adds that the defalcation of Bigelow will not exceed previously published figures.

Justice Wright today set May 22 for the trial of the postoffice conspiracy cases against August W. Machen, former superintendent of the free delivery; William G. Crawford, local agent of the Postal Lock and Device Co., and George E. Lorenz, former postmaster of Toledo, O. They are charged with defrauding the government in connection with the sale of letter carriers' supplies to the Postoffice Deartment.

Minister Bowen, the United States diplomatic representative at Caracas who has made charges reflecting upon the integrity of Assistant Secretary of State Loomis, will be recalled and required to either prove his statements or be dismissed from the government service.

M. Jusserand, the French Ambassador called upon Secretary Taft this morning and informed him that the French government in accepting the invitation to name a prominent engineer to act as one of the consulting engineers on the Panama Canal had nominated M. Guerard, a man famous in his profession and at present in charge of the government works in Marseilles harbor. This selection concludes the foreign representation on the board of consulting engineers. England named Mr. Hunter, the engineer of the Manchester canal, and Germany named Herr Tincanza, a member of the ministry of public works. The American members so far named are Alfred Noble, Wm. B. Parsons ond Wm. H. Burr, the two latter of whom were members of the old canal commission.

The executive committee of the Municipal League of Baltimore disclosed yesterday the contents of its report, which was completed Wednesday, and in which charges of "graft" by the City Council are made. The committee expresses as its conviction that "money has been corruptly used in a number of measures in our council."

Excitement was renewed in the Chicago wheat trade again yesterday by an additional break of 4½ cents in the May price on sales of perhaps 2,000,000 bushels, chiefly by two or three big houses. Wheat traders were elated at the close, because it looked as if the May price had dropped to a level where the cash trade would take hold of the market. May wheat sold yesterday at 86¼.

President Roosevelt has decided to return to Washington a week earlier than at first planned. The Venezuelan affairs may be the cause of the change of plan, although Secretary Taft says that there is no pressing emergency requiring the immediate presence of the President, who was doubtful when he stated that he would be able to remain in the hunting county until the middle of May.

"Practice charity to all and maintain unity, peace and concord among yourselves" was, in effect, the parting injunction of Dr. William Osler in his farewell address to the Medical and Chirurgical Faculty of Maryland in Baltimore yesterday afternoon. At the close of the address the painting of Dr. Osler presented to the faculty by some of the doctor's friends was formally placed in the keeping of the faculty.

Assistant Secretary of State Francis Loomis last night gave out a statement denying in detail the charges made against him by United States Minister Herbert W. Bowen, at Caracas, Venezuela. The publication of this statement met with the unqualified approval of Secretary of War Taft. It was admitted yesterday for the first time by Secretary Taft that charges impuging the official character of Mr. Loomis had been made to him by Minister Bowen.

Yesterday's session at Columbia, S. C., of the Eighth Annual Conference for Education in the South was given up to the conference of southern State superintendents of education. Dr. Alderman, president of the University of Virginia, said that he had recently read an excellent article in the Atlantic Monthly on the "Difficulties and Dangers of a College President." Sometime he said he wanted to write, or get someone else to write, an article on the pleasures of a college president. He spoke of the type of the student in the South and said that he was more serious minded than the student of other sections of the country, spending less time riding in automobiles, yachts and the like.

An employment agency in Richmond is bringing a considerable number of Swedes there to labor on farms and at saw mills in that vicinity. Some Germons and some Italians are also coming. The same agency is taking orders for servant girls, and when they reach fifty they will be brought in.

The old fight against Captain Rogers, collector of internal revenue in the Richmond district, has ended for four years. The secretary of the treasury has sent him his bond to be renewed for four years, and last week General Clarke was sent to Richmond to examine the affairs of his office. He reported the office in good condition. Captain Rogers' friends are delighted that the scuffle has ended.

BOY BEATEN TO DEATH.

Little Ralph Smith, six years old, beaten to death by his mother, were the main facts in the revolting details before a coroner's jury in Manchester yesterday. Mrs. Mary Smith, the child's mother, was arrested Wednesday night when she spent the night in jail. The coroner's jury declared the mother guilty of the boy's murder, and the father, Shepherd K. Smith, accessory to the crime.

Mrs. Smith declares she committed no wrong, but was obliged to correct the child. The woman is intelligent, but is said to have a bad temper. Mrs. Crostic, a neighbor, stated that she heard someone was dying at the Smiths', and going there, found Ralph dead upon the floor, without any clothing on his body, which was cut and bruised from head to foot. Asked why the child was cut and bruised, the mother said she had whipped it with a razor strop.

Lynwood Turner, 10 years old, a playmate of Ralph, also told a tale of many beatings and constant cruelty, and sobbed through his testimony.

The evidence went to show that the child was punished to death by degrees, and that he expired after a day of high carnival with the whip, stick, fists and strop. The razor strop had a steel catch and hook on the end, and it was this that made the serious cuts on the head and body. When found the child's hair was matted with blood, gashes cut in his face and breast and nearly every part of his body was bruised. Lynwood Turner said that Ralph made no fuss when his mother beat him, because if he had she would beat him a great deal more. He said he had seen the father beat him with a broken axe handle, tying the boy's hands behind him while he whipped him, and throw him against the floor. He said he saw Ralph Wednesday hiding behind the back fence, so weak that he could hardly stand, and then saw his mother pull him into the house, choking him. Later he heard something like rocks being thrown against the floor. He supposed it was Ralph.

The jury and officers turned pale and sick from these awful details.

Shepherd K. Smith, the father of the boy, was employed as a horse clipper at a livery stable, and was known as an intelligent and reliable man. The owner sent him to make a deposit in bank Wednesday, and since that time he has not been seen in the neighborhood.

Mrs. Smith received a telegram from him from New York yesterday, saying he was away on business and would return Tuesday. An effort will be made to arrest him there. Mrs. Smith has another child, two years old, which has always been kindly treated. Mrs. Smith declares that Ralph was her own child, and not a stepchild.

Had Another "Dearest."

A letter which was excluded in the Nan Patterson case yesterday was written by Nan Patterson to Leslie Coggins, a racing man in San Francisco, while Nan was in a hospital there. It was full of endearing terms. The prosecution expects to show by it that the chorus girl was disloyal to Young while professing undying love for him. The letter was as follows:

Dearest—I was afraid you had forgotten all about your little girl. I am feeling fine and dainty, sweetheart. Have been up all day long. I am going out tomorrow at 2 o'clock. What do you think of that? Gee! Isn't that great! Geehum, I'm so glad I can't wait for morning to come. "Y" is coming up this morning. I'll ring you up tomorrow night. I am going to give a little party to a few of the nurses who have been more than good to me, and wish you could run up for a minute later on. But maybe it will be better to wait until I leave this damn place. What do you think dear? Just send me a real long note because they do help so to cheer me up.

Please send this back in your note, love, as I really think it best. Be a good boy and do as mother says. All my love and kisses. CRY BABY.

Today's Telegraphic News

General Fitzhugh Lee Stricken With Apoplexy.

Washington, D. C., April 28.—General Fitzhugh Lee was stricken with a severe attack of apoplexy while enroute to this city last night from Boston aboard the Federal express of the Pennsylvania Railroad.

The train arrived in Washington at 10:05 this morning and was met by several army surgeons who gave General Lee immediate attention. An ambulance was in waiting to convey him to a hospital.

General Lee was taken first to the Emergency Hospital and from there to the Providence Hospital. It is stated that the general's entire left side is paralyzed as a result of the stroke and that his condition is most grave. The attack came upon him shortly after the train crossed the Harlem rivers on it way South.

The stroke occurred about 3:30 this morning. The general suffered great pain on account of the jolting of the train, which was augmented on his arrival here by the necessity of removing him from the car through a window.

At the Providence Hospital it was stated that there was no change in the general's condition at 11 o'clock. His family has been summoned from Richmond.

Dr. Richard C. Cabot, a well known physician of Boston, was on the train when General Lee was stricken and attended him until the arrival at Washington.

A consultation of several physicians who were called into the case was had shortly after General Lee's arrival at the Providence Hospital. It is feared by them that there has been a hemorrhage of the brain.

At noon the physicians issued a bulletin stating that at that time General Lee was resting easy and was conscious. Little has been done as yet in the way of treatment save the administering of stimulants. Dr. Edie, of the army, is in charge. He says that there will probably be no material change in the general's condition until late this afternoon.

Norfolk, Va., April 28.—The illness of General Fitzhugh Lee was received with great sorrow here, where he has lately made his home, and is regarded as a severe blow to the interest of the Jamestown exposition, of which he was president. He has been in charge of the promotion of the interests of the exposition and has recently influenced several States to make large appropriations for the exposition.

During the past few months Gen. Lee has been leading a strenuous life in connection with the Jamestown exposition, of which he is president, and doubtless his over exertion on behalf of that exposition brought about the attack.

The Chicago Strike.

Chicago, April 28.—Assistant Chief of Police Schuettle took personal command of the 500 patrolmen detailed for strike duty this morning. Chief O'Neill has prepared for unusual disturbances. Every member of the police force has been ordered to be ready for immediate service. The chief says the whole strength of 2700 officers and men can be thrown into the strike district within a short time.

Chicago is facing the most dangerous disturbance since the Debs strike, eleven years ago, if not the most serious in its history. The business of the city, already partly paralyzed, may soon be completely enveloped so far as it is dependent upon teaming by the greatest teamsters' strike on record.

The unions declare that the strike has got beyond their control, even if they should desire to limit it. The leading merchants and business men realize their impotency to check its spread. They simply assembled all the resources in their power and prepared to meet the attack and cope with it.

Violence and rioting are expected. The leaders in the Employers' Association are as determined to "unmake," the teamsters' union, as the strike leaders were to build their power to greater heights out of the struggle. "Since it has come," is the general comment, "let us have it out now and forever."

The application for a federal injunction has been drawn up. Across a table in the Union League Club yesterday certified checks to the amount of $250,000 were passed. The amount was contributed by nearly 100 of the wealthiest business men and bankers of Chicago. This sum, constantly augumented by voluntary subscriptions, represents the financial war chest which the employers have set aside to defeat the termsters' unions.

Before noon the entire strike district was patrolled by policemen with drawn clubs, while officers watched the vicinity of stables and wagon sheds to prevent strikers from firing them or assaulting non-union helpers. Five hundred private detectives from the agencies accompanied the force of 500 patrolmen. Armed guards sitting on each of the wagons with shot guns and rifles across their knees, were ready to defend their charges. Scores of wagons escorted by squads of police and detectives moved through down town streets, with difficulty. Even the formidable array of weapons and officers did not prevent strike sympathizers from blockading the course of wagons driven by non-union men.

Most of the teamsters at work in the places are negroes. The appearance of a in any district occupied by labor union men is a signal for an assault, and an incipient riot. Nearly all the non-union negroes have been given pistols. They are instructed not to use the weapons unless their lives are in peril.

Violence started early. At 7 o'clock a colored man entered the A. M. Forbes Cartage Company's stable, now owned by the Employers' Teaming Company, to apply for work as a teamster. On his departure several pickets attacked him and beat him until he became unconscious. The police arrived too late to save the man from attack. Eight coal wagons owned by the employers' company left the stables in 18th street guarded by 100 private detectives. George O. Connell, a guard employed on a wagon of the United States Express Company, was severely beaten in front of the City Hall. His assailant was the driver of another wagon.

Chicago, April 28.—United States Judge Kohlsaat at 11 o'clock this morning, upon the application of the Employers' Teaming Company, a West Virginia corporation, granted a temporary injuction against the strikers.

A dispatch from York, Pa., says that in a wreck of the 8:17 Northern Central passenger train this morning, caused by a misplaced switch, thirteen persons were hurt. The officials believe that an attempt to wreck the train was made.

The Nan Patterson Case.

New York, April 28.—Mrs. Julia Smith, the sister of Nan Patterson, was on the stand again this morning, when the trial of the Floradora girl charged with killing Caesar Young was resumed.

Sensational was the testimony yesterday afternoon, when the accused girl's sister was called to the stand, and the prosecutor drew from her that Young had promise to get a divorce and marry Nan, and that her sister was wild when she heard he did not intend to keep his word. Through this line of questioning the prosecutor was able to get in the fact that Julia Smith had written a letter to Young, stating that Nan was "frantic," and she would not answer for the consequences, unless he "did the right thing."

Recorder Goff refused to permit the letter to be put in evidence, but by ingenious questions the jury were made acquainted with its contents. Assistant District Attorney Rand will make further efforts to get this Julia Smith letter in evidence today. The production late yesterday of a letter showing that the actress had relations with another beside Young, was a strong point for the state in its contention that Nan's relations with the bookmaker were only mercenary.

Now that the state has placed Julia Smith on the stand, Abe Levy, counsel for Miss Patterson, will endeavor by cross examination, today, to offset many of the points scored by the prosecution. The prosecution will rest its case some time today, and an adjournment will probably be taken until Monday.

As soon as court was opened today Mrs. Smith resumed her place on the witness stand and was question by Mr. Rand concerning the report that Young did not intend to marry her sister. Mrs. Smith refused to answer many of the questions propounded her during the cross-examination on the ground that by so doing she would be degraded or convict herself of crime. A recess was then taken until 2 o'clock.

Naval Movements in the East.

Penang, Straits Settlements, April 28. The British steamer Catherine Apcar, which has arrived here, reports that she passed two squadrons last night, in the strait of Malacca, about sixty miles south of Penang. There were eight vessels in the first squadron, and seven in the second. The ships were all headed toward Singapore.

The Russian Admiralty announced yesterday that Rear Admiral Nebogatoff's fleet would arrived at Singapore today. It seems probable, therefore, that the fleet sighted by the Catherine Apcar is that of the Russian commander, although the Apcar made no report as to the nationality of the vessels.

Saigon, Cochin China, April 28.—A person who has just returned here from Kamranh bay says he believes that Admiral Rojestvensky intends to enter the Pacific ocean and will then proceed to Vladivostok. Rear Admiral Nebogatoff was expected to reach Indo-Chinese water yesterday, where he plans to effect a junction with Admiral Rojestvensky. The Russian vessels this person saw in Kamranh bay include warships, a tugboat, a repair ship, a water ship and colliers, making a total number of 52 vessels. Each vessel has sufficient provisions on board to last six months.

Saigon, Cochin China, April 28.—The Russian squadron and the transports accompanying it, which have been lying off Kamranh bay, have sailed. The destination of the fleet, which is being followed by four German colliers, is not known.

London, April 28.—A dispatch to Lloyds from Calcutta says that Admiral Rodjestvensky has captured the British steamer Beatrice, which was bound from Saigon to Japan. The Beatrice left Saigon on Monday, carrying a cargo of rice. Several other steamers, loaded with contraband and bound for Japan, left Saigon, after the Beatrice sailed, and it is feared that they have also been captured.

Tore "Flap" From His Nose.

Philadelphia, April 28. Almost frantic from the terrible itching, Thomas Dunlevy, the Massachusetts iron moulder, who is at the Medico-Chirurgical Hospital with his arms strapped about his head in an effort to grow a new nose, tore the arm from its bandaged position last night and the tedious and delicate operation will have to be performed entirely anew. Nurses were on the watch constantly, but in spite of this, in the effort to gain a little relief from the strain and nervous tension he was undergoing, Dunlevy tore the "flap" loose from his nose. No time will be lost, and Dr. Stillwell Burns will repeat the operation this morning. Dunlevy lost his nasal organ by having melted lead splashed on it in a mill.

Dispatch Lost.

Manchester, Eng., April 28.—The Despatch says that there has been a great deal of comment caused in inner official circles over the loss of the Russian dispatch which was sent recently from St. Petersburg to Ambassador Ostensacken, at Berlin. Several other decuments sent at the same time as the dispatch in question arrived safely. The loss of the important message was not discovered until some time afterwards when an unexpected move by Germany in the very matter to which the dispatch referred brought to light the fact that the message had never been delivered. The incident is referred to as a good illustration of the corruption and irregularity that exists in Russian officialdom.

Scare Subsiding.

St. Petersburg, April 28.—The newspaper scare over possible rioting on May day is now subsiding. The proclamation issued by Governor General Trepoff, stating that the government authorities have no fear of demonstrations on that day, and which has been placarded through the city, has had a quieting effect. The sober element blame the newspapers for manufacturing sensational statements, thus putting useless rioting ideas into the heads of the people. The incident contributes to the argument put forth by the reactionaries who ask that if newspapers under the present semi-freedom granted to them can create such a scare, what may happen if full freedom to the press is granted?

Full of Tragic Meaning

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from this terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. The State Board of Education.

[Special Dispatch to the Alexandria Gazette.]

Richmond, Va., April 28.—The Board of Education is making slow progress with the work of redistricting the State. It will probably do nothing tangible this week. Governor Montague is sick and unable to attend and Prof. Kent is still absent but is expected today. The task is a difficult one at best, and but few consolidations are expected. The city is full of applicants for superintendents and their friends.

All Richmond is distressed over General Lee's illness.

Mutiny Among Russian Soldiers.

Warsaw, April 28.—Advices received from Suwalki, state that while a regiment of reservists were marching through the streets of that town, to a train, which was to convey them to the far East, they broke ranks when opposite a Catholic Church, and entered the edifice. While they were praying and singing, one of the soldiers jumped upon a chair, and began to urge his comrades to refuse to go to the war. The priests induced the soldiers to depart. After arriving at the railway station, a young Jewess distributed socialist literature among the troops, twenty of whom smashed their rifles and refused to enter the train. The police then attempts to arrest the Jewess, when a crowd gathered around her, to protect her from the officers. A riot was imminent, when some one shouted: "Now throw the bomb," when the soldiers and police immediately fled in all directions. Before they recovered the scare the Jewess made her escape. The soldiers tried to mutiny and as a result, three of them were shot and fifteen sentenced to be imprisoned for life.

The Late Joseph Jefferson.

Buzzard's Bay, Mass., April 28—Twenty-five of thirty members of the family of the late Joseph Jefferson have already gathered within the walls of "Crow's Nest," on the picturesque shores of Buttermilk Bay, in preparation for the funeral. The body of Jefferson will remain at the Waterman Undertaking rooms in Roxbury till Saturday afternoon, when it will be brought to Buzzard's Bay. The funeral will be held at 11 o'clock Sunday morning, at "Crows Nest." The officiating clergyman has not been decided upon. Services will be very simple. Following the house service, the funeral cortege will be formed, comprising about 25 carriages. The route to the cemetery is about eight miles, and two hours will be occupied in the trip.

Cutting Short President's Sport.

Glenwood Springs, Col., April 28.—Secretary Loeb maintains his sphynx-like attitude as to the reason for President Roosevelt cutting short his sport. Whatever the reason, however, it was serious enough to keep the secretary and his office force busy from the time of his return from Newcastle yesterday until early in the evening. The first indication was a thousand word dispatch to Secretary Taft, at Washington, and this was quickly followed by a succession of shorter ones until the wire which was looped into the Hotel Colorado was practically given over to the transaction of official business. All other messages were sent to the office in town. Chicago and Denver remain the only stops the President will make on his homeward trip, and they are affected by the change only so far as bringing the time of the visit forward a week.

Statement Controverted.

Madrid, April 28.—The dispatch sent recently by your correspondent recounting the action of King Alfonso in slapping the face of a respected veteran naval officer is absolutely authenic notwithstanding the denial made by Senor Walls Morino, the Spanish charge d'affairs at Washington, D. C. The officer, Francis Chacon, referred to, and whom the Spanish diplomat declared died four years ago, is an actual rating captain of the first rank. By courtesy he is referred to as Admiral Chacon and it was thus that his name was used. He is very much alive and is listed by the last naval register as chief of the naval section of the War Department.

Lost His Voice Down Cellar.

Hazel, Pa., April 28.—A peculiar affliction befell William Simmons, of this city, yesterday morning. At 6 o'clock he went to the cellar, apparently in possession of his faculties. Several minutes later, when he attempted to call his wife, he found that his speech was gone. Doctors have been engaged with him all day, but he is unable to speak, and his case is pronounced hopeless.

Death of a Cardinal.

Rome, April 28.—Cardinal Andrea Ajuti died here today. Cardinal Ajuti was 55 years old. He was elevated to his position as cardinal in 1903, the red hat being conferred on him at the first public consistory of Pope Pius X, on November 12th, 1903. Previous to that time he had been the papal nuncio at Lisbon.

New York Stock Market.

New York April 28.—There were buying orders from all important banking interests in the market at the opening, and these orders are still being kept in all the leading stocks, but they are on a downward scale. The weakest factor in the market was the condition of commission house account, and especially those for western interests.

Best Cough Medicine for Children.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale by Gibson & Timberman and W. F. Creighton & Co.

The Sewage Question.

The Commissioners of the District of Columbia have finally expressed the opinion that no damage will be done to Alexandria by the construction and operation of the outlet to the sewage-disposal system in the Potomac, opposite Magazine Point, and Col. Biddle, Engineer Commissioner, yesterday recommended that the officials of this city be so informed. At the same time Col. Biddle stated that nothing would be done this summer which will interfere with the question being taken before Congress at the next session. This action was practically all that was asked of the District officials by the Alexandrians at the recent hearing on the subject.

Col. Biddle takes the position that the whole question of the disposal of the sewage was considered by the board of expert engineers who designed the present system, and had there been indications of any damage being done to Alexandria the recommendations made would not have been considered by them. He points out if Congress desires to empty the sewage farther down the Potomac than the present plans contemplate, it will necessitate an additional pumping plant, as the present pumping station is not adequate for such a purpose. The construction of an additional pumping station is entirely practicable, he says.

The position taken by Col Biddle is supported by the report of Superintendent of Sewers D. E. McComb. So far as Washington is concerned, Mr. McComb reported to Col. Biddle, if the Anacostia river did not exist there would be no reason why the sewage of the city should not be discharged into the river opposite the city, as it now does, flowing past Alexandria without offense. In selecting the chosen location, one of the most important features, he continues, was the wide area covered by the Anacostia river, receiving its waters from a comparatively small area, thus being merely a tidal basin. He says were the sewage discharged into the river at a point opposite the city, a considerable portion would flow back into the river at the following ebb tide, a portion to remain and be augmented at subsequent ebb tides, and an offensive condition of the river resulting. Magazine Point was chosen for the location of the outlet in order to prevent the fouling of the Anacostia river.

City Committee.

A meeting of the City Democratic Committee was held at the Hotel Fleischmann last night. Chairman Chas. Bendheim presided, and Messrs. R. T. Cook, secretary, George L. Simpson, Oscar F. Carter and Arthur Davis (the latter proxy for W. B. Dobie) were present.

Mr. Bendheim stated that he had been informed of rumors to the effect that it was the purpose of the committee to meet and arbitrarily fix a date for the primary to choose nominees for city offices. He said that it had previously been the custom to arrange for a conference between the committee and candidates, and this meeting had been called for that purpose.

The other members present disclaimed any desire to fix a date without consultation with the candidates.

Mr. Simpson moved that the meeting adjourn with the understanding that candidates will be expected to appear before the committee May 3, at 8 p. m., at the Hotel Fleischmann, in order that a date for the primary which would be acceptable to all could be fixed upon.

Mr. Carter moved that, inasmuch as it is against the law to use money in elections, candidates be forbidden to employ private ticket holders at the polls, and that voters be required to secure from the authorized ticket holders the tickets stamped and furnished by the committee.

Mr. Simpson said that this would be an excellent idea but for the fact that the law does not preclude a candidate from having his own tickets at a primary, nor forbid his friends from holding his tickets and performing such other services in his behalf as they see fit, provided they do not attempt to purchase votes.

After some further discussion it was decided to invite the candidates to meet the committee on May 3, after which the meeting adjourned.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

A white man, arrested by Officer Beach at the instance of his wife, who charges him with non-support, had his case continued.

William Roberts, colored, arrested by Officers Beach and Gill charged with trespass, was ordered to leave the city.

Reuben Maguire, colored, arrested by Officers Lyles and Allen charged with disorderly conduct, was fined $2.50.

A King street merchant, cited to appear by Officer Beach for obstructing a sidewalk, was fined $5. He noted an appeal to the Corporation Court.

Willie Grimes, charged with reckless speeding on a bicycle, had his case continued.

Baseball.

Two more baseball games are scheduled to take place on the grounds of the Episcopal High School, near this city. These will be with Miller School on Wednesday, May 10th, and Woodberry Forest, Saturday, May 13th. Both of these games ought to be interesting as Miller and Woodberry are said to have good teams and so late in the season ought to be in the best condition. A 'bus will leave the corner of Washington and King streets at 3 p. m. on the days of these games, and return; fare 50 cents. The charge for admission to the grounds is 25 cents and tickets can be purchased either at Gibson's drug store or from the driver of the 'bus. These tickets must be worn conspicuously in sight.

The Girls' Friendly.

The Girls' Friendly Society, of Christ Church, are holding a fair this (Friday) evening from 4 to 8 o'clock in the Parish Hall. Besides articles that have been made by the girls during the year, they will have for sale ice cream, cake, caramels, etc.

A Serious Accident.

An accident that has been anticipated ever since King street was paved with vitrified brick occurred near the intersection of that street with Lee about five o'clock yesterday evening. A youth named Willie Grimes was riding a bicycle down the incline from Fairfax to Lee street and while proceeding at high speed collided with two colored girls. One of them—Jennie Buckner—was knocked down and seriously injured, while the boy was thrown from his wheel, and his head, one ear, and an arm and leg cut. That he escaped with his life seemed fortunate. Lieutenant Smith went to the scene and had the injured girl removed to the Alexandria Hospital, and Grimes went to his home. The latter was to appear in the Police Court this morning to answer a charge of recklessness in a public street, but he is confined to his bed. The above is a fulfillment of an oft-repeated prophecy. The reckless manner in which young people, boys and girls, speed up and down King street, especially near the close of the day, has caused much apprehension, and the accident should not have surprised any one. As has often been stated, such procedures are flagrant violations of a plain city statute which makes it a misdemeanor for any one to engage in diversions dangerous to themselves or others.

New Motor Cars.

Four new motor cars, the first of the new equipment of the Washington, Alexandria and Mount Vernon Railway Company, are now at the barn of the company at Four-mile run being made ready for service. As was stated in the Gazette, two of them arrived Monday and the others Wednesday from the Brill car works in Philadelphia, where they were built. The cars are handsome specimens of electrical railway equipment and are modern in all their appointments. They are forty-three feet long and will seat fifty-two people. They are arranged like an ordinary steam railway car, with reversible seats upholstered in brown leather The aisle up the center and the space between the seats are somewhat more roomy than in the cars now in use. The cars are strongly built, with double floors, and the windows are so arranged that they can be made perfectly tight to keep the cars warm in cold weather. The heaters to be installed will run along the sides of the car and not under the seaf, as was the system in many of the cars now in use. As the motors are on hand it is expected the first of the cars will be in service within the next two or three days, and all four motors will be running by the early part of the coming week. The new cars are numbered 19, 20, 21 and 22.

Ben Hur.

Towering triumphantly as the most massive and picturesque as well as the most impressive dramatic spectacle in the history of the world, "Ben-Hur" will seek new honors at the National Theatre, Washington, the week of May 1. Never before in the history of Washington amusements has an announcement of a theatrical production created such a sensation, for it means something new to the public to see a dramatic spectacle on the colossal scale of the present production. The scenic settings to be used are those which marked the World's Fair run in St. Louis this past summer and the engagement just played at the Big Chicago Auditorium. They were imported from the Drury Lane Theatre, London, for this season's tour of the play. "Ben-Hur" is a wonderful spectacle. All who have seen it agree that nothing more beautiful, inspiring spiritual and edifying than "The Healing of the Lepers," in the last act, has ever been offered on the stage of the American theater.

Knights Templars' Pilgrimage.

To return a visit to the city of Philadelphia two years ago of the members of Columbia Commandery, No. 2, Knights Templar, of Washington, 260 members of Mary Commandery, No. 36, of the Quaker city, arrived last night. This morning the party, joined by the knights of Columbia Commandery, went via the electric railway to Mount Vernon, where a short address was made by W. E. Andrews. From there, at 11:15, they crossed by boat to Marshall Hall, where at 1 o'clock they were treated to a planked shad dinner. Later in the afternoon the party returned to Washington by boat. Tonight Mary Commandery will witness the installation of the officers of Columbia Commandery in the ballroom of the New Willard Hotel, in Washington.

A Fatal Fall.

M. W. Miller, a carpenter, living in the Lincolnia, Fairfax county, neighborhood, was the victim of a fatal accident while at work Wednesday shingling the roof of a house belonging to a lady in the vicinity. The latter had occasion to leave home while the carpenter was at work, and upon her return she found him lying in the yard in an unconscious condition. The scaffolding bore evidence of having broken and thrown the unfortunate man to the ground. The ambulance of the Alexandria Hospital yesterday brought Mr. Miller to that institution. He died at 3 o'clock this morning from his injuries, which among others consisted of a fractured skull. The deceased was 56 years old and unmarried.

Entertainment.

An entertainment was given at Annandale last night by the scholars of of Miss Beattie's school for the benefit of the school library and a large audience was present, all of whom enjoyed the evening. The bean guessing contest for a gold watch resulted in a tie between two well known residents of the neighborhood which will be decided later. An address both humorous and pathetic was delivered by Mr. R. P. W. Garnett, of this city, who took for his subject the old plantation life before the war. He was facetiously introduced by Mr. G. K Pickett. The entertainment was a success in every particular.

The Fishery.

Fishtown was at a standstill this morning, no cutters being at work and no fish arriving. The market has recently been overstocked with herring and prices have been as low as 75 cents per thousand. They were quoted at $1 this morning. Parties operating trapnets cannot send the fish to market and realize any margin at these prices. Shad are still scarce and high. They were selling at from 50 to 60 cents for roe in market this morning. There was an increase in the receipts of pan fish, but they were selling at former prices.

The steam yacht Gretchen belonging to Mr. Reyburn, of Washington, is on the ways at the shipyard for repairs.

Personal.

Mr. Geo. M. Cragg and Miss Alice Roberts Martin, both of Alexandria, were married at the parsonage of the M. E. Church South April 26, at 8 p. m., by Rev. J. P. Stump.

Miss Ethel E. Larmand has returned from a delightful visit to her friend, Miss Kate M. Collins, in Orange county.

Progressive Euchre.

The progressive euchre party at the Young Men's Sodality Lyceum Hall last night was an exceedingly pleasant affair. Thirty-one prizes were awarded.

Circuit Court for the County.

[Judge C. E. Nicol presiding.]

The trial of Joseph Gardner, colored, indicted for the murder of his wife, which began Wednesday, was still in progress when this report closed today.

LOCAL BREVITIES.

John O'Brien was convicted in Washington yesterday of embezzling money from Mr. Frank Hume.

Ernest Bowen, colored, was arrested this evening charged with forging an order on James Dabney, also colored.

According to a count made by the Washington police there has been a gain of 44,790 in the population of that city since 1897.

The schooner Grace Benedict, recently loaded with railroad iron at W. A. Smoot & Co's wharf, has sailed for Newberne, N. C.

Messrs. J. T. Shaw and Thomas Carter have been awarded the contract for remodeling Mr. J. J. Kelly's saloon on upper King street.

The closing dance of the season to be given at McBurney's hall tonight by the Alexandria German Club promises to be a most delightful affair.

Judge Barley, in the Corporation Court, yesterday declined to grant a liquor license to G. Henry Hodges, 114 north Fairfax street. The application was resented by neighbors.

Mr. J. D. Knight has been awarded the contract by Messrs. E. S. Leadbeater & Sons for the erection of a large wagon shed on the lot bounded by King, Prince, Lee and Union streets.

The electric trains have transported a large number of people to and from Mount Vernon today. The trains have at times been run in sections. Many visitors were in this city during the day.

Capt. R. F. Knox, auctioneer, will sell tomorrow at public auction several lots in the Wheat & Suter sub-division in the northwestern portion of the city. The sale will take place at noon in front of the Royal street entrance to the City Hall.

One of the Relief Hook & Ladder horses, which has been sick for the past few days, was this morning operated upon for a slight contusion on the neck and was later taken to the Hayfield farm in Fairfax county where it was turned out in pasture.

George K. Bender will have for sale at his stand in southern end of the Royal street wing of the market tomorrow a fine lot of monthly Blooming Rose Bushes and a full line of Bedding Plants; also Fresh Vegetables and a fine lot of Boston Market Lettuce.

Senator Daniel at G. A. R. Banquet.

Senator Daniel, of Virginia, was the guest of honor at the banquet of the Union League Club and the U. S. Grant Post, of the G. A. R., at the Union League Club in Brooklyn last night in honor of the birthday anniversary of the late Gen. U. S. Grant. A band played "Dixie" as Senator Daniel arose to Speak, and the famous Confederate veteran was greeted by rousing cheers from the G. A. R. "The return of the Flags" was the subject of Senator Daniel's toast. He expressed hearty appreciation of the generous action of the government in giving back the Confederate trophies, and said it was worthy of a great people.

"I, too, am an American citizen," Senator Daniel said, "and am proud to be with you tonight. I would sooner trust my honor to some true soldier who fought against me than to some theorist who stood in the background. I don't suppose you want me to discuss the questions that divided us, and as I brought no microscope with me tonight, I don't believe I could find them if I wanted to. Gentlemen, it's all over; all finished. You have a Union League Club here, but there is not a family of American people under your flag or any other flag which is not a union league. One flag, one land, one heart, and hand, one nation forevermore."

He Sheltered a Woodtick 49 Years.

Winsted, Conn., April 28.—William H. Lawrence, of Sheffield, discovered this week a woodtick which had imbedded itself in his body 49 years ago. Although it had never greatly inconvenienced him it had produced a lump on his side as large as a walnut, and when extracted was found to be an inch and a quarter long.

Protesting Against Rate Reduction.

The recent proposition of J. Pope Brown, chairman of the Georgia Railroad Commission, to reduce the passenger rate in Georgia from three to two cents per mile was protested against by the Brotherhood of Locomotive Engineers, the order of Railway Conductors, and unions of the blacksmiths, machinists and telegraphers, boiler-makers, railway train men, carpenters and joiners, clerks and car men. These organizations employed an attorney especially to represent them, who urged that such a reduction would work against the prosperity of the State and lead to a reduction in the number of railroad employes as well as of their wages. The Travelers' Protective Association also protested that a reduction as proposed would result in fewer trains and poorer service.

Demented Negro Creates a Sensation

Floyd Payne, colored, 25 years of age, created excitement in South Brookland, streets without clothing, and later breaking into the house of Capt. Albert Stewart, smashing several hundred dollars worth of furniture and assaulting Captain D. C., yesterday by wandering about the Stewart. He first attracted attention on the streets about 7 o'clock, when several persons attempted to effect his capture. He eluded their efforts and disappeared. Shortly afterward he went to the residence of Captain Stewart. The noise attracted the attention of the neighbors, and with their assistance Payne was overpowered and turned over to the Washington police. He was yesterday afternoon examined by the police surgeons and committed to St. Elizabeth's Asylum.

Monument at Big Bethel.

The programme for the unveiling of the monument on the battlefield at Big Bethel on June 10 has been completed. Addresses will be delivered by Gov. Montague and Major E. J. Hale and Gov. R. B. Glenn, of North Carolina, and by Rev. Dr. E. Pendleton Jones, of Hampton, son of Rev. Dr. J. William Jones, Stonewall Jackson's old chaplain. The monument will be unveiled by Miss Maggie Tabb, of York county, representing the Confederate organizations of that section, assisted by Miss Fannie Kyle, of Fayetteville, N. C., representing the organizations of that State. The site is about seven miles from Newport News.

Like a Pall at the Bridal Feast.

Wilkesbarre, Pa., April 28.—A pathetic incident in connection with the Conygham mine disaster, in which 10 men lost their lives by the breaking of the carriage rope, was brought to light yesterday. Charles May, a half-brother of John Chase, one of the men killed, was married at Memorial Church Wednesday to Miss Edith Thomas. After the marriage ceremony an elaborate wedding dinner was ready to serve. The guests awaited the arrival of Charles. He failed to come, and a member of the family who went in search of him brought back the sad news that he had been killed. No one sat down to the dinner, and the wedding trip of the bridal couple abandoned.

The Gaynor-Greene Case.

Montreal, Canada, April 28.—John F. Gaynor and Benjamin D. Greene, wanted in Georgia for the theft of $2,600,000 from the United States government, will have to defend themselves on they will be committed for extradition. Judge Lafontaine this morning decided that a prima facie case has been made out against the accused and he announced that he was ready to hear their defense. That the accused expected this decision was shown by a statement made by their counsel, that they want a remand for eight days because on Monday next, they will go before the court of Appeals, in Quebec City, and ask that the decision of Judge Davidson should be quashed.

A magnificent bronze statue of William McKinley, which is to be erected by the State of Ohio and the citizens of Columbus, is nearing completion in the studio of H. A. MacNeal, College Point, L. I. It will be the first memorial on the bronz of the martyred President, and it will be placed on the State capital grounds at Columbus.

A mail report has arrived at Marseilles from the Congo, states that 8,000 natives armed with rapid fire guns, attacked Captain Avert's mission, and that only the captain and six soldiers escaped after a heroic defense. Of the 8,000 natives who participated in the attack, 600 of them were killed.

In the Sistine Chapel in Rome this afternoon, the Pope will bless two massive gold crowns studded with 2,000 gems, and valued at $5,000,000. The crowns are for the statues of the Madonna del Pilar, and the Madonna del Bambine of Spain and the cost was defrayed by the Spanish peasantry.

Girls' and Misses' White Dresses.

Our new spring stock is shown in its entirety, and this season's values are intrinsically the best we have ever offered. Special reference is made to our unusually large showing of Girls' and Misses' Dresses of fine wash materials, in the higher grades of linens, piques, English reps, etc., in white and colors.

Girls' "Peter Thompson" Suits

Our Girls' "Peter Thompson" Suits"—always good—are better than ever.

We have succeeded in making the manufacturers put a better and finer serge into this season's suits than ever before used. They are made by men tailors. All trimmings are of silk. Every seam is silk bound and double-stitched. The "Peter Thompson" is the most stylish and serviceable suit a miss from 12 to 20 years old can wear.

Prices $15, $18.50 and $20.

At $3.75 each.

Girls' White India Linen Dresses, with lace yoke and deep bertha of lace and insertion; full skirt trimmed with clusters of small tucks; sizes 8 to 10.

At $7.50 each.

Misses' 2-piece White India Linen Dresses, waist fastening in back, with surplice front; skirt made full, with tucked seams and deep hem; sizes 14, 16 and 18.

At $12.50 each.

Misses' White India Linen Dresses, with full waist and square yoke of embroidery, finished with deep bertha of embroidery, lace and tucks; skirt is tucked at top and has deep tucked ruffle; sizes 14, 16 and 18.

WATCHES AND JEWELRY

Just Plain Jewelry Facts.

(1) It costs money to make good jewelry. Gold, silver and workmanship don't grow on bushes.
(2) Good jewelry can't be sold at a price less than the first cost, plus makers' and sellers' profits.
(3) Cheap jewelry isn't worth the space it takes to describe it. It always proves unsatisfactory.
(4) Good jewelry can be guaranteed; cheap jewelry can't.
(5) We sell only jewelry that is made by reliable manufacturers, guaranteed by them and by us. We sell it at as low prices as can possibly be made on goods of equal quality.
(6) It will pay you to come to us for your jewelry needs. Any day—but today best of all.

HAMLINS

WIZARD OIL

No time should be lost, because lung trouble may easily develop into pneumonia or consumption. Hamlins Wizard Oil, applied to the chest, relieves the pain and inflammation, loosens up the cough and soon cures the disease.

"My little girl," writes Rich. W. Thornton of Ouray, Colo., "suffered more or less with a cold on the lungs since her birth, and finally the trouble became serious. No remedies gave relief, until we tried Hamlins Wizard Oil, one bottle of which permanently cured her." Price 50c and $1.00.

Keeping House in St. Petersburg.

In St. Petersburg housekeeping costs more, it is said, than in the other European capitals. To begin with, nothing can be bought without bargaining, and those who are skillful in the art have the advantage over their neighbors. If you know how to get on the soft side of a Russian tradesman and ply him with proverbs and jokes you can cut his price down to the narrowest margin of profit; otherwise he simply robs you. Indeed, he cannot well do otherwise, because not only a trick of the trade, but an unwritten law, obliges him to ask for his wares from 30 to 40 per cent more than he expects. He himself would be astonished if you would take him at his word. Then, again, of course, a great deal depends on the choice of shops. One of the most satisfactory ways of buying provisions is not to visit any shops, but to repair to the open air markets. In certain public squares of the capitals little stalls are fixed up every morning, and here fruit, vegetables, meat, poultry, hardware and haberdashery can be bought up to noon. But at the strike of 12 every booth and stall vanishes.

The Black of the Eye.

The invariable blackness of the pupil of the eye was a puzzle to scientific men until Professor Helmholtz showed it to be the necessary effect of refraction. Sufficient rays are reflected from the bottom of the eye to render visible the parts there situated, but since these reflected rays in emerging from the eye must traverse the same ocula media through which they passed in entering the eye it is evident that they must undergo the same refraction which they underwent as entering rays, only in an opposite direction. The result of this is that the paths of the emerging and entering rays coincide, and the former will therefore return to the source whence as incidental rays they originally started. There is nothing in the pupil to reflect light—in fact, it resembles a window looking into a dark room.

He Didn't Mind the Fog.

The London Chronicle relates that during a dense fog in London a military man advanced in years lost his way completely in the nocturnal vapor. Bumping against a stranger, he explained his misfortune and gave his address. "I know it quite well," said the stranger, "and I will take you there." It was some distance, but the guide never hesitated for a moment on the whole route. "This is your door," he said at last as a house loomed dimly before them. "Bless my soul," said the old gentleman, "so it is! But how on earth have you been able to make your way through such a fog?" "I know every stick and stone in this part of London," said the stranger quietly, "for I am blind!"

The First "Canard."

The first use of the word canard (meaning a duck) in the sense of hoax is attributed to Norbert Cornelissen, who, to give a sly hit at the ridiculous pieces of intelligence in public journals, circulated the report that an interesting experiment had just been made calculated to prove the extraordinary voracity of ducks. Twenty were placed together, and then one of them was killed and cut up into pieces, feathers and all, and thrown to the other nineteen, who greedily devoured it. The process was repeated until, as was averred, the last duck had eaten the whole of his nineteen companions. The story ran the round of all the journals in Europe and so established the appropriateness of the term canard for hoax.

The First Erie Canal Boat.

The William Tell was the first boat to pass over the Erie canal from Buffalo to Albany and down the river to New York. Her cargo consisted entirely of hogsheads, barrels and bottles of Lake Erie water, part of which was mingled with the waters of the bay of New York on the occasion of the great fete in celebration of the opening of the wonderful waterway. Her passengers included Governor De Witt Clinton, the leader in the canal enterprise, and a delegation of statesmen and distinguished persons from foreign lands and various parts of the United States.

Care of Birds.

In an English treatise on the "Hygiene of Bird Keeping," by George Creswell, attention is called to the thoughtless practice of hanging birds in cages just above the level of the sashes of windows and to the mistaken kindness of hanging a cage in a corner of a sitting room or a kitchen near the ceiling. In the one case the bird is subjected to drafts and will in all probability develop catarrh and bronchitis, and in the other it lives in a vitiated atmosphere.
